

# School Interact Club- AASRA

*Inspiring action, leadership, and service in every student.*

I am the founder member of AASRA at KC Public School, created to give students a platform to engage meaningfully with their school and local community. I wanted to build a space where students could learn leadership, responsibility, and teamwork while making a real difference in people's lives.

Through AASRA, we plan and execute a variety of initiatives focused on community service, social awareness, and creative engagement. Each week, our members meet to brainstorm, organize, and carry out projects that range from environmental awareness campaigns and school improvement drives to festive celebrations that combine fun with learning. Over the months, we have focused on teaching moral values, promoting hygiene and cleanliness, celebrating national festivals with creativity, and initiating programs that encourage empathy and social responsibility among students.

Being a part of AASRA has taught me the importance of collaboration, planning, and consistent effort. Watching our members take ownership of projects, contribute ideas, and see their work impact the community has been incredibly rewarding. AASRA has not only helped me grow as a leader but has also inspired my peers to step up, take initiative, and create meaningful change. For me, the club represents the power of student-led action to build a more aware, compassionate, and proactive school community.
